* The mean population for the year is obtained as follows:—To the population at the end of the preceding year add four times the population on the 31st March of the year under review, twice the population on 30th June, four times the population on the 30th September and the population on the 31st December, and divide the total by 12, which is the method now in use throughout the Commonwealth of Australia. Each quarterly mean is arrived at by adding together the number of the population at the beginning and at the end of the quarter and dividing the sum so obtained by two. † Excess of departures over arrivals. ‡ Decrease.

*£1,249,581, being the total value of Exports from all Western Australian ports to other Commonwealth ports, has been included under *Fremantle and Perth*, as, owing to the system of export vouchers having been suspended by the Commonwealth Customs Department for inter-State traffic, there is no means of distinguishing the individual ports of shipment.

No. 10.—*GENERAL IMPORTS into the State of Western Australia during the Year 1907.*

Duties on British and Foreign Imports are collected under the provisions of the Commonwealth "Customs Tariff Act, 1902" (Edwd. VII., No. 14).

NOTE A.—On all British and Foreign Imports 10 per cent. has been added to the fair market value of the goods at port of shipment.

Do. B.—The "Quantities" columns are left blank in all cases where the quantities declared are packages of an irregular or unrecognised size, and consequently do not indicate the number, capacity, or weight of articles imported.

No. 5.—*Number of Holdings of all kinds (Alienated Lands, Lands in process of Alienation, and Leased Crown Lands), from which Returns were received for the Season 1907-1908, arranged in Acreage Series, and distinguishing Statistical Districts, Sub-Districts, and Areas of Western Australia.*

NOTES.—1. *The (rectangular) areas* adopted, which are shown on the maps attached to this part of the *Statistical Register*, are comprised within the sheet lines of the Standard Plans of the Survey Department. Being permanently fixed they are units that can be readily sub-divided and re-grouped at any future time into new districts and sub-districts, without impairing their use for comparative purposes. Except where the areas are broken by the sea coast or other causes, the area numbers here printed in black type represent areas of 8,437½ square miles each, whilst those printed in ordinary type represent areas of 937½ square miles each. 2. Areas in parentheses and marked with an asterisk (*), are those for which the returns, if any, have been included in those of an adjacent area where the homestead is situated. In most instances, however, they are entirely unoccupied. Areas marked (*a*) are portions of areas only.

b The reason why Returns relative to certain alienated and leased land are not obtained under the Statistics Act is mainly to be found in the fact that it has proved impracticable for the Statistical Collectors to enforce the provisions of the Act in connection with land which remains *entirely unimproved or unstocked*, and also in a lesser degree in the fact that small holdings under one acre in extent are exempted from supplying Returns. The Statistical returns are, however, collected from all lands over one acre in extent on which improvements have been effected, and upon which Agricultural or Pastoral pursuits are carried on, and, therefore, comprise all lands the obtaining of Returns from which would serve any practical purpose.

CROPS, SEASON ENDED 29TH FEBRUARY, 1908 (TABLES 12 TO 12D).

NOTES.—1.—*See* Notes above Table No. 5. Except where the Statistical areas are broken by the sea coast or other causes, the area numbers here printed in black figures represent areas of 8,437½ square miles each, whilst those printed in ordinary type represent areas of 937½ square miles each. 2.—Areas in parentheses, and marked with an asterisk (*), are those for which the returns, if any, have been included in those of an adjacent area where the homestead is situated. In most instances, however, they are entirely unoccupied. Areas marked (*a*) are portions of areas only. 3.—Average yields are given for Districts and Sub-Districts only.

No. 12.—*Acreage, Production, and Average Yield per Acre of Grain, and Pulse, in each Statistical District, Sub-district, and Area of Western Australia.*

Part VII.—Mineral Statistics and Water Conservation.

No. 14.—*Return of Ore and Minerals, other than Gold, produced in Western Australia, also number of men employed in their extraction, as reported to the Mines Department during 1907 and previous years.*

Note.—As the collection of statistics of minerals, other than gold, was only commenced by the Mines Department in 1899, the mineral production previous to that year has been taken from the Customs Records. *See* Table 15.

* Children under the age of seven years are not criminally responsible; those who have attained that age, but are still under fourteen, are only criminally responsible if it is proved that at the time of the offence they were capable of knowing that they ought to have acted otherwise. In the above table charges have been included concerning children under seven and over fourteen. Neglected children, formerly dealt with in this table, are now tabulated separately, *see* Tables Nos. 38 and 39.

* Exclusive of cost of Administration. † Up to and including 1895 the numbers given are those of the "Assisted" or State-aided Denominational Schools. By "The Assisted Schools Abolition Act, 1895," all grants-in-aid to these were abolished from the 31st December of that year. Thereafter these schools ranked as "Private" schools, as distinguished from "Government" schools. The figures for 1896 and onwards include all private schools, secondary as well as primary, though one of the former (the Perth High School) is subsidised by the State. The average attendance, and, consequently, the percentage of attendance to enrolment at these schools from 1896 is partly estimated, some of the returns forwarded being obviously incorrect. ‡ Not ascertained previous to 1897. *a* From and including 1897 the percentage of attendance to enrolment has been calculated on the basis of "average attendance" to "average enrolment." *b* Including one undenominational school, particulars of which are not included. *c* Year ended 30th June.

† The examination being similar to that laid down for the High School Scholarships, one of which happened to be vacant, this Scholarship was, in place of the Bursary, offered to, and accepted by, the boy who had passed; no Bursary was, therefore, actually given.

‡ In 1899, one boy and one girl obtaining equal marks, the prize was divided between them. In the above table each has been credited with winning a Bursary.

§ In 1899, and subsequent years, the Bursaries were for boys and girls, without distinction of sex.

* The monthly barometer mean readings since 1885 are taken from the 9 a.m. and 3 p.m. daily readings. Prior to that the mean of the noon readings was used as the monthly mean. † The thermometers were moved in August, 1885, to their present position in the Botanic Gardens, and as they have apparently given a slightly lower record since then, the means have been taken from 1886 only. — Signifies "No record."

Part XII.—MISCELLANEOUS.

No. 5.—*Rainfall in Western Australia during 1907.*

With averages (to the end of 1907) for all stations having at least five years' records. 100 Points = 1 inch.

Note.—The stations are grouped into districts, and these are subdivided into square degrees, which are figured according to the latitude and longitude of the N.W. corner of each square, the first two figures representing the latitude and the last two the longitude, less 100°. Thus Perth is in the square 3115, showing that its latitude is 31° odd minutes, and its longitude 115° odd minutes. The mean rainfall for each square degree is adopted from all the stations situated in that square having complete records for 1907. The average is taken for all years up to and including 1907.

a From the first settlement of the colony up to the year 1837 there were no Blue Books issued, and the figures relating to arrivals and departures, shipping, imports and exports were taken either from the reports of the Harbour Master at Fremantle or from the Perth newspapers of that period. From 1837 to 1859, inclusive, the Blue Books give only the excess of arrivals over departures, or *vice versa*. *b* No records obtainable. *c* Including allowance of 5 per cent. for unrecorded departures.
